Over the last several years Bob Bingham has been working for you. Bob ...

- founded NWPOA.ORG, likely the largest property owners group in Idaho,
- was a driving force in defeating the ULUC land use codes which would have doubled the regulations upon rural property owners,
- stood against the county manager initiative which would have added another layer between citizens and the commissioners,
- taught local taxing districts that the county impact fee program was set up wrong, which prompted all to shut down their programs before it was too late,
- completed budget reviews of elected officials and some taxing districts.
